FALL, 1899,

WILLIAM EWING & Co.
MONTREAL

WM. EWING & CO.'S

CATALOGUE OF BULBS, PLANTS, &c.

✻ 1899. ✻

We take pleasure in handing you the THIRTIETH ANNUAL ISSUE OF OUR BULB AND PLANT CATALOGUE, and ask you to scan its contents carefully. Flowering Bulbs are so inexpensive in comparison with the beautiful display they make, either in the Conservatory, Parlour or Flower Border, that the wonder is they are not universally used, especially for Parlour decoration, and in the smaller suburban and country gardens.

We also offer a very extensive selection of the best varieties of HARDY PERENNIAL PLANTS. We do this to meet a general demand for this class of Flowers. A proper assortment of varieties will ensure a continued display from year to year and the first cost is all the outlay required. To have a succession of bloom from early spring till late fall, Flowering Bulbs, of the various early and late varieties, and Hardy Herbaceous plants, must be used, and they are equally appropriate in the most extensive pleasure ground or the smallest city flower plot. Soliciting your orders, to which we promise prompt and careful attention,

We are,

Yours truly,

WILLIAM EWING & CO.,

142 McGill St., MONTREAL.

Bulb orders accompanied with Cash will be forwarded free of charge to all parts of the Dominion.

Suburban and City Customers. Orders by mail or telephone (Telephone number Main 184), will receive prompt attention. We deliver goods to any part of the city, Westmount, Point St. Charles and all Railway Stations.

Cultural directions furnished with each order when desired.

COLLECTIONS OF BULBS.

Orders for the following collections, accompanied with cash, will be forwarded freight or post paid to any part of the Dominion.

Bulbs are carefully selected and the prices will be found much lower than ordinary list prices.

No. 1, 50 CENT COLLECTION of Winter Flowering Bulbs.

Comprising—3 Dutch Hyacinths, 3 Roman Hyacinths, 3 Paper White Narcissus, 6 Freesias, 3 Von Sion Daffodils, 3 Scilla Siberica, 12 Crocus.

No. 2, DOLLAR COLLECTION of Winter Blooming Bulbs.

Comprising—6 Dutch Hyacinths, 1 Easter Lily, 6 Roman Hyacinths, 3 Paper White Narcissus, 6 Freesias, 3 double Daffodils, 3 Single Daffodils, 25 Crocus, 6 Double Tulips, 6 Single Tulips, 3 Jonquils, 3 Scilla, 3 Allium, 6 grape Hyacinths.

No. 3, DOLLAR COLLECTION of Bulbs for Outdoor Culture, for Spring Blooming.

Comprising—6 Dutch Hyacinths, 10 Grape Hyacinths, 25 Crocus, 25 Tulips, 6 Single Daffodils, 6 Double Daffodils, 12 Snowdrops, 6 Scilla Siberica, 6 Jonquils, 1 Liliun Longiflorum.

We furnish Cultural Directions when desired.

Hyacinths

Are the most popular of the Dutch Bulbs for indoor decoration, and they are equally effective in the open ground. We recommend the **Single Varieties** for growing in water, while in pots or in the open ground, single and double are equally popular.

Culture—Whether grown in glasses with water, or in earth for greenhouse or parlour decoration, the pots and glasses must be placed in a **dark cool place** for six weeks, at least. Free rich soil is necessary to successful pot culture or in beds outside, and a good compost is equal parts river sand, very old and well rotted cow manure and good garden soil, or well rotted loamy turf.

Mixed Named Varieties but in Separate Colours. Suitable for Bedding.

These are sound healthy bulbs, and will be sure to give satisfaction. Their low price should cause them to be extensively planted.

Choice Named . . .

HYACINTHS

For Forcing.

The most effective way of forcing Hyacinths is to grow a clump of a half dozen bulbs of a good forcing variety, in an eight-inch pot. The following are correctly named, good sized bulbs, just suitable for this sort of cultivation, as well as for growing in glasses.

Single Red and Rose—Gertrude, Homerus, L'Adorable, La Reine des Jacinthes, Madame Hodson, Robert Steiger, Gigantea, Grand Vainqueur, Norma, Sultan's Favourite.

Single White—Alba Superbissima (Theba) Baron Von Tuyll, Blanchard, Crown Princess, La Candeur, La Franchise. La Grandesse, Grandeur à Merveille. La Belle Blanchisseuse, Mary Stuart, Voltaire.

Single Blue—Argus, Baron Von Tuyll, Blue Mourant, Blondin, Czar Peter, Charles Dickens, Grand Maître, La Peyrouse, Marie Mimosa, Regulus.

Single Yellow—Héroïne, La Pluie d'Or.

PRICE OF ABOVE, OUR SELECTION.

White—Per 100, \$8.00.

Per dozen, \$1.00.

Red and Blue—Per 100, \$6.00.

0.90.

25 BULBS AT 100 RATES.

Select Named Single Hyacinths.

These are first quality bulbs, specially selected for growing in water, and of course equally adapted for growing in earth.

Goethe. —Pale yellow, fine bells, early.....	1.25	12½
Jaune Supreme. —Rich yellow, early.. ..	2.00	20

Early Roman Hyacinths.

Roman Hyacinths should be more generally cultivated by amateurs than they are, as they flower so freely and so very early. The bells are much smaller than ordinary Hyacinths, but each bulb gives 3 or 4 spikes of the purest white blooms, which are of most exquisite fragrance.

Plant them as early as possible, and give the same treatment as Dutch Hyacinths in pots.

Half a dozen or more bulbs in a pot make a fine display, and they may be had in bloom for Christmas and New Year.

Per 100. Per doz. Each.

Grape Hyacinths.

Fine for outdoor culture, for edging borders; they flower early and make a fine succession to Crocus.

Muscari Botryoides	Per 100	75c.
Beautiful azure blue	" doz.	10c.
Muscari—White	" 100	75c.
.....	" doz.	10c.

CROCUS.

One of the first of spring flowers is the Crocus, with its showy colours of yellow, purple, white, blue and intermediate shades. A most effective way of planting Crocus is to dot them in groups of three to seven, at regular distances, on the lawn, and let them remain there, or they can be used as edgings.

A Bunch of Crocus.

Mixed Varieties	40c.	5c.
Blue and Purple.....	40	5
White	40	5
Striped	40	5
Large Yellow Mammoth	60	10
Cloth of Silver	50	6

TULIPS.

The habit of growth and the gorgeous and varied colours and markings of the blooms place the Tulip in the front rank of spring blooming flowers, either when grown in pots for Greenhouse or Parlour decoration or in beds, rows of clumps in the flower garden. Is of easy culture, and bulbs flowered indoors can be dried off during summer and replanted in the open ground in the fall, and those planted in the garden can either be lifted and dried off, to make room for summer blooming plants, or they can be left in the ground and only lifted and replanted every two or three years.

SINGLE EARLY TULIPS.

FOR BEDDING AND FORCING.

	Per 100.	Per doz.		Per 100.	Per doz.
Alba Regalis —Dwarf, pure white, \$1 25	20		Keizer Kroon —Yellow and red and fine either for forcing or outdoor cultivation	\$1.25	20
Artus —Dwarf, bright scarlet	1.25	20	La Reine —(Queen Victoria), medium, white, slightly shaded with rose, fine for forcing, splendid variety	1.25	20
Bacchus —Dwarf, purple red	1.25	20	Montresor —Large yellow blooms, extra	2.50	40
Belle Alliance —Brilliant red, dwarf.....	1.25	20	Pottebakker —Mixed colors, dwarf and early, fine	2.00	30
Chrysolora —Pure golden yellow fine for forcing, dwarf.....	1.50	25	Prince of Austria —Very large, orange-scarlet flower. Is one of the best varieties either for forcing or outdoor culture.....	2.25	30
Canarybird —Clear golden yellow	2.00	30	Princess Marianne —Very large rosy white blooms.....	1.25	20

Duc d'Orange —Orange, tinged with yellow.....	1.25	20			
Dusart —Medium in height, producing large dark scarlet flowers, very robust in habit and specially suited for city cultivation	2.00	30			

This is the time to dress your lawns with Thomas Phosphate Powder. Will thicken up the Sod for winter. See page 20.

TULIPS.—CONTINUED.

SINGLE LATE TULIPS.

These have the most brilliant colours and beautiful markings of all Tulips. They continue blooming well into June, and are thus specially valuable to those having country establishments, but which they do not occupy early enough to have the full advantage of the earlier sorts. They are of much stronger growth than the early varieties.

Parrot or Dragon Tulips.—Best
 mixed.....\$1.00 15c.

Produces large and brilliantly coloured flowers, the edges of the petals being beautifully feathered. Most effective in mixed borders amongst the taller growing plants but are not adapted for pot culture. We strongly recommend this variety

Parrot, Cramoie Brilliant—.....\$2.25 40c.

The latter is a grand improvement, producing blooms of deep crimson with large black star-shaped centres, and unlike other of the Parrot varieties, is suited for pot culture.

SINGLE LATE BORDER TULIPS.

Finest sorts of Bi-blooms and Biz-
 ards in mixture.....\$1.00 15c.

Grow tall, and the blooms have the most striking markings. The rose coloured have white grounds, and are beautifully feathered and striped with crimson, pink, and scarlet, and the violet coloured have also white grounds with markings of violet-blue, purple and black. Are only for outdoor culture, and coming in after the early Tulips are over, keep up a blaze of colour till spring bedding plants flower.

Gesneriana—This is the parent stock of the late flowering varieties, which by careful work has been so improved in size and colouring, that it is now a most valuable sort, and produces large, showy scarlet blooms, with blue centres, which are greatly prized. Per 100, \$1.50. Per doz., 20c.

DARWIN TULIPS.

The Darwin is a late flowering variety of recent introduction, coming in flower with the Late Single or Bi-bloom varieties, and, like them, is of strong growth. They are all self-colours, which vary from light tints of lilac, rose and brown, to deep violet, brilliant red, dark brown and black, and are only used for outdoor cultivation. No flower garden is complete without Single Late and Darwin Tulips. Per 100, \$2.25 Per doz., 40c.

BOTANICAL TULIPS.

Greigi—An Asiatic species with dark green broad leaves with maroon spots, flowers are of great size, orange-scarlet in colour with yellow and black centres. Per 100, \$10.00. Per doz., \$1.25.

Bouton d'Or—This is of the same species, with large handsome globular flowers of pure golden yellow. Per 100, \$2.50. Per doz. 40c.

THOMAS PHOSPHATE POWDER dug deeply into the soil and thoroughly mixed with it, imparts a brilliancy to the colour of Tulips and strengthens their growth, that nothing else will.

DOUBLE EARLY TULIPS

For Bedding and Forcing.

Duke of York Tulip.

Per 100. Per doz

Agnes—Dwarf, brilliant scarlet	\$1.25	20c
Blanc borde pourpre—Dwarf, violet and white ..	1.25	20
Duc van Tholl—Dwarf, red and yellow, early	1.00	15
Duke of York—Dwarf, carmine with white edge, good for forcing	1.25	20
Gloria Solis—Bronzy, crimson, edged with gold	1.25	20
Helianthus—Yellow and scarlet, extra	2.00	30
Imperator Rubrorum—Brilliant orange-red, extra fine	2.25	40

Per 100. Per doz

La Citadelle—Dwarf, purplish red with yellow border	\$1.25	20c.
Murillo—Dwarf. Superb bluish white, one of the best for forcing ..	2.50	45
Pæonie—Dwarf; red	1.25	20
Rex Rubrorum—Scarlet flower, tipped with yellow, very large	2.25	40
Veronica—Dwarf; cherry colour, early	1.25	20

La Candeur—Dwarf; pure white, fine	1.00	20
Le Blason—Dwarf; white tinged with rose	2.00	30
Rubra Maxima—Superb deep red ..	2.25	40

DOUBLE LATE TULIPS

These come in succession to the early sorts and maintain the brilliancy of the early Flower Borders.

Per 100. Per Doz.

Buonaparte—Brown shade	\$1.00	15c.
Overwinnaar—White, shaded with blue	1.25	20

Per 100. Per Doz

Lord Wellington—Large purplish violet blooms. Extra	\$2.00	40c.
Yellow Rose—Pure golden yellow ..	1.25	20

DAFFODILS. —In the open ground Daffodils thrive best in deep and rather moist soils that are not peaty but do well in any ordinary garden soil. Never use new manure. In sandy soil dig in deep thoroughly decomposed cow manure. **THOMAS PHOSPHATE POWDER** should be mixed with the soil at the depth, and a little deeper, than the bulbs are planted. Half a pound to the square yard will do. Cover about twice the depth of the bulb, when planting. Indoor culture same as Hyacinths.

Polyanthus and Daffodils.

Of all spring flowers none excel the Daffodil for graceful beauty, and what is also of great importance, mostly all the varieties are equally as well adapted for Conservatory and Parlour decoration as they are for outdoor cultivation, and they succeed perfectly well in almost any soil, and require but little manure. We have imported a greater variety and in greater quantity than ever before, because we are convinced that everyone growing them will be perfectly delighted with their beauty and the profusion and duration of their bloom.

Narcissus Paper White.

Single Daffodils.

No class of flowering bulbs is attracting more attention at present than the varieties of Daffodil (single or double). Their graceful form, sweet perfume and rich colours render them invaluable as cut flowers or for greenhouse or parlour decoration. Their ease of culture, sure blooming qualities and hardiness in standing our severe winters render them most popular as Spring flowers.

Barri Conspicuous—Is a flower of great beauty and refinement, with large broad spreading yellow perianth, broad short cup conspicuously edged with bright orange-scarlet. Is certainly the Queen of Daffodils\$1.00 10c.

Bicolor Horsfieldi—One of the most stately of all the Daffodils. The perianth is pure white, while the trumpet is of a most delicate yellow, and few orchids are prettier than it is. Early.. 1.00 10c.

Polyanthus Narcissus

OR SINGLE BUNCH FLOWERED DAFFODILS.

These are best adapted for house culture.

Per 100, Per doz.

Paper White, Large Flowered.—Is of the easiest growth and most satisfactory bloomer for house culture. The blooms are large and borne in trusses, we strongly recommend it. Plant 6 bulbs in an 8 inch pot.....\$1.25 15c.

Her Majesty—Pure white with pure yellow cup, very early and a profuse bloomer..... 50c.

Mixed Varieties— 1.50 15c.

A Bunch of single Daffodils.

Biflorus—Pure white with yellow crown, very fragrant and produces two flowers on each stem. Late. Per doz, each. Per 100, \$1.00 20c. 3c.

Bulbocodium—Yellow, very early and distinct. A good forcer\$1.00 10c.

Emperor—Perianth deep primrose, trumpet rich yellow. Very large flower 1.25 15c.

Golden Spur—Perianth large and spreading, trumpet large and of a deep rich yellow. Early, extra.... 75c. 8

Incomparable—Early, fine flowers of rich yellow..... 25c. 3

SINGLE DAFFODILS.—CONTINUED.

	Per doz.	each.		Per doz.	each.
Leedsi, Duchess of Brabant —Very large pure white perianth, cup canary colour.....	25c.	3	Princeps Maximus —Large deep yellow trumpet with sulphur perianth. One of the most valuable for forcing. Per 100, \$2.00.....	35c.	4
Moschatus —(Albicans). Large sulphur trumpet with white perianth. Very early and hardy.....	60c.	6	Princeps, Giant —Same character of flower as preceding. Is a good forcer and succeeds specially well out of doors. Per 100, \$1.25.....	15c.	2

Sulphur Phoenix—Pale creamy white, delicately perfumed, a chaste and beautiful flower. Per doz. \$1.25; each 15c.

Von Sion—"The famous Old Double Daffodil," large golden yellow double flowers, the best forcing variety.

Per 100 \$2.00; doz. 30c.; 3 for 10c.

Finest Mixed Varieties—Per doz. 35c.

Chinese Sacred Lily.

"ORIENTAL NARCISUS."

OUR CHINESE LILIES ARE THE GENUINE ARTICLE. CHINESE CROWN.

Bulbs bloom in six or eight weeks after planting, throwing up many flower stalks thickly studded with blooms, white with yellow centre, and very fragrant. Grows in shallow bowls containing water and pebbles, to keep the bulbs down, or in earth, in pots. This is one of the greatest floral curiosities.

A dozen bulbs, planted at intervals, will give a succession of flowers all winter. Price for 1st size bulbs Per doz. \$1; each 10c. For Lily Bowls see page 21.

LILIES.

	Per 100.	doz.	ea
New Japanese Easter Lily. —			
Giganteum	\$8.00	1.10	10c.
New Japanese Easter Lily. —			
All the year round.....	7.50	1.00	10c.

Flowers resemble the Harrisii in size, shape and colour, but are much more numerous, 4 to 6 weeks earlier, and the plant is of dwarfer and more compact habit of growth. This variety has never been known to have been afflicted by disease—in fact, there is no such thing in Japan as Lily disease.

Bulbs potted beginning of December 1898, bloomed early in March and in six hundred, one grower forced, there was not one diseased bulb in the lot! Potted beginning of September they will be ready for Christmas. They are perfectly hardy. This season planted in the open ground 1st of June, they were in full flower 1st August—earlier than bulbs planted the preceding fall! Our first offering of bulbs are from cold storage and a customer informs us to-day (2nd September) that some of those potted middle of August are in some cases showing flower. This same grower states he will plant no more Bermuda bulbs. Our 1899 importation will arrive in good time for potting for Easter sales.

HARRISII OR BERMUDA EASTER LILY.

Free flowering forcing variety with pure white long trumpet shaped blooms 5 x 7 bulbs, \$1.00 per doz.; 10c. each. 9 x 11 bulbs, \$1.50 per doz.; 35c. each.

Aratum or Golden Japan Lily.—\$2.00 per doz. 20c. each.
Speciosum Album—.....\$2.00 per doz. 20c. each.

Rubrum—.....\$1.50 per doz. 15c. each.

Melpomene—.....\$2.00 per doz. 20c. each.

We have now on the way an importation of Hardy Japanese Lilies of various varieties. Those imported last year stood the winter perfectly and have flowered splendidly. In herbaceous borders they are particularly effective. Will print a special list later.

Lilium Harrisii.

Freesia Refracta Alba

or African lily of the
Valley.

A bulb of very easy growth indoors, and one of the most beautiful and delicately perfumed little flowers in cultivation. Pure white with a tinge of yellow on lower petals.

Extra large selected bulbs. Per 100 \$1.25, per doz. 15c.

Miscellaneous Bulbs and Roots.

*These varieties marked * will only be ready for shipment in October or beginning of November.*

Per doz. Each.

Allium Neapolitanum—Produces large trusses of snowy white blossoms on tall slender stems, and is equally valuable for forcing as for growing out of doors, as it is perfectly hardy and flowers profusely, even in the shade 20c. 3c.

Allium Azureum—Deep sky-blue with dark line through middle of each division. Hardy.....1.00 10

Anemone—Double mixed..... 25. 3

Chionodoxa Lucille—(Glory of the Snow). One of the most lovely spring bulbous plants ever introduced, producing spikes of azure blue flowers with pure white centres 20 3

Crown Imperial Lily—(*Fritillaria Imperialis*). A well known, hardy spring blooming plant, with clusters of pendant bell-shaped flowers, surmounted with tufts of green leaves. Choice mixed colours..... 1.00 10

Allium.

Bermuda Buttercup.—Oxalis.

Miscellaneous Bulbs and Roots.—CONTINUED.

	Per doz.	Each		Per doz.	Each
* Iris —A charming, hardy and beautiful garden plant. The flowers of the Iris are probably the richest coloured of all hardy flowers. Fresh MUSHROOM SPAWN.

Mushroom cultivation is not so difficult and uncertain as it is generally supposed to be. One of the principal features in its culture is the planting of good fresh Spawn. Mushrooms can be grown successfully under the greenhouse bench, in a cellar or in beds in the open air, prepared in the same manner as hot beds.

Finest English Milltrack Mushroom Spawn—Per brick, 15c.; one doz. bricks, \$1.75, freight extra. When ordered by mail, add 5 cents per brick postage.
Special quotations for large quantities.

Hardy Perennial Flowers.

No department of Horticulture is more deserving of the increased interest lately given to it, than the old fashioned hardy herbaceous plant border. In such a bed or border, it may be said that every day brings to view some new feature of beauty, as the different varieties come into bloom, and this can never be obtained by foliage or flowering plants, in set beds or ribbon gardening. Besides the many old and worthy favourites, numerous beautiful plants have been introduced in recent years, and we can supply many more varieties of hardy perennials than we have space to enumerate in this Catalogue. Their inexpensiveness is a great recommendation, the first cost being all the outlay required, for when once planted and given a fair share of attention, they are sure to increase in size and beauty. With an assortment of Hardy Perennial plants, a most beautiful, interesting and continuous display may be kept up from early spring till late in the autumn.

When once the beds or borders of Perennials are thoroughly established and properly arranged as to height, time of blooming, etc., no one will think of returning to the yearly planting out of tender bedding plants. It is both troublesome and very expensive, and the first breath of frost leaves the garden unsightly. The best season to transplant Hardy Perennials is the latter part of September and during October. They may also be planted successfully in spring as soon as the ground is in good condition, but the former period is preferable to insure good results the first flowering season.

We have in stock many varieties besides those enumerated below, so that intending purchasers can order almost any of the old favourites, and most of the newer sorts, and have their orders executed. Most of these Perennials may be raised from seed, and will flower generally the second year; for varieties see our Seed Catalogue.

We make the following special offers for large orders.

One dozen plants in varieties, our own selection	\$ 1.25
100 plants in 50 varieties, purchasers selection from our list	12.50
100 plants in 50 varieties, our own selection from our list	10.00

Please note that the above special prices do not include Nos. 33, 58, 67, 71, 129.

THE FOLLOWING PRICES ARE DELIVERED MONTREAL.

	Price each.	cts.
1 <i>Achillea Ptarmica</i> —Fl. pl. "The Pearl"	15	
Flowers are double and of the purest white and produced in marvellous quantities. Invaluable for cutting. 2 feet		
2 <i>Aconitum Napellus</i> —Monk's Hood	20	
3 <i>Adlumia Cirrhosa</i> —Hardy climber	20	
4 <i>Agrostemma Coronaria</i> —One foot	15	
5 <i>Alyssum Saxatile</i> —"Gold Dust" 1 foot.....	15	
6 <i>Anthemis Kelwayi</i> —Yellow, 2½ feet	25

22 <i>Callirhoe verticulata</i> —1 foot, Crimson.....	20	
23 <i>Campanula Carpatia</i> —Blue Bells	15	
24 " " <i>alba</i>	20	
25 " <i>Glomerata Dahurica</i>	20	
26 " <i>Persicifolia</i> —2 feet.....	20	
27 " " <i>Alba</i> —2 feet.....	20	
28 " <i>Grandiflora</i> —4 feet	20	
29 " <i>Medium</i> —"Canterbury Bells," in great variety	15	
The Campanulas are amongst the grandest of summer flowering plants. The Canterbury Bell with its bell-shaped single and double flowers forms a dense mass of beauty, the plants being literally covered with bloom. It is adapted for mixed borders, and so are most other varieties of <i>Campanula</i> , while the dwarf sorts make pretty edgings.		

Aquilegia No. 8

Single Canterbury Bells. See No. 29

HARDY PERENNIAL PLANTS.—CONTINUED.

Price each cts.

- 30 *Catananche bicolor*—2 feet, blue and white..... 25
 31 *Centaurea rutherfordia*—2 feet, yellow. 25
 32 *Cerastium tomentosum*—6 in. Silvery foliage 15
 33 *Clematis*—Many beautiful varieties... \$1.00
 34 *Convallaria majalis*—"Lily of the Valley," clumps 15
 35 *Carnation*—Hardy border sorts, extra fine seedlings..... 15
 36 *Carnation, Picotee*—Border sorts, extra fine seedlings..... 25
 37 *Chrysanthemum maximum filiforme*—2 feet, white..... 20
 38 *Coreopsis lanceolata* 15
 39 " *Grandiflora*—2½ feet..... 15

A valuable border plant of easy culture, producing during summer an abundance of rich yellow flowers on long stems, and so is most useful for cutting

- 40 *Delphinium Formosum*—Beautiful beautiful blue, 4 feet..... 15

AZALEAS.

An importation of the very best varieties and in many different sizes is now on the way. Special quotations will be given later. Please keep in mind that these are the very best "stocky" plants.

...FERTILIZERS...

ALBERTS' THOMAS PHOSPHATE POWDER—Has been proved by carefully conducted and numerous experiments, in comparison with other makes of artificial manures, taking its price into account, to be by far the most profitable in its application. Its lasting effect is one of its greatest advantages over other manures, and it is claimed by many who have used it extensively, even over barnyard manures, and its merits for top dressing Lawns, Hay or Pasture lands are remarkable. We ask all our customers to give it a trial, and if they do, are convinced they will find great profit in the using of it. As a top dressing for Fruit Trees or small fruits it has produced most satisfactory results. It is the best manure for Bulbs of all sorts and should be dug in so that the base of the bulbs will rest on the soil which it has been mixed with. We have not space here to give full particulars of the many advantages of the **Alberts' Thomas Phosphate Powder**, but on application we shall mail free, an exhaustive pamphlet in reference to it. \$25.00 per ton. 100, \$2.00. lb., 3c.

Sulphate of Ammonia—Splendid plant Fertilizer. lb. 10.

Nitrate of Soda—5c. per lb.; \$3.50 per 100 lbs.

Sulphate of Potash—6c. per lb.; \$4.00 per 100 lbs.

Muriate of Potash—5c. per lb.; \$3.50 per 100 lbs.

Land Plaster—55c. per bag.

BONE FLOUR—The pure flour of ground green bones. Is a valuable fertilizer and stimulant for Roses, Chrysanthemums, and all pot plants. 100 lbs. \$3.50; 10 lbs. 50c.; 5 lbs. 30.
